Experience

SMOLLAN INDIA, Virtual JS Developer (Node.js) | Client: Google
Jun 2023 - Present

- Developed and maintained **Node.js applications** with **MongoDB** and **Express.js**.
- Collaborated with cross-functional teams to integrate high-quality solutions.
- Implemented best practices for **code organization**, **documentation**, and **version control** with GitHub.

SMOLLAN INDIA, Virtual Data Analytics
Jan 2023 - May 2023

- Analyzed and interpreted complex datasets to drive business decisions.
- Utilized **data visualization tools** (e.g., Chart.js) to communicate insights effectively.
- Ensured **data integrity** and collaborated with teams to gather requirements.

Education

Babu Banarasi Das University
Data Science & Artificial Intelligence
Master of Computer Applications (MCA)
2023 - 2025

Shri Ramswaroop Memorial University
8.2 CGPA
Bachelor of Computer Applications (BCA)
2020 - 2023

Regency Public School
76.75%
ISC (Commerce)
2019 – 2020

Regency Public School
84.80%
ICSE (Commerce)
2017 – 2018

Skills

Programming Languages:
Node.js, Express.js

Frameworks & Libraries:
Puppeteer.js, Chart.js

Database:
MongoDB

Frontend Language:
HTML5, CSS3, JavaScript, Handlebars, EJS

Templating Engines:
Handlebars, Ejs

Technologies:
JSON, Cloud Storage, Web Scraping, Image Generation

Projects

WhatsApp Bot

- A versatile bot offering **media conversion**, **meme creation**, and **social media downloads**.
- Features include song downloads, name-based gender percentage, and language translation.
Skills: Node.js, Express.js, MongoDB, Web Scraping, Google API

🔗 [github/source](#)

Web Scraping Tool

- Built a **web scraping tool** using **Node.js** and **Puppeteer.js** to extract dynamic data.
- Implemented **proxy rotation** and rate-limiting techniques for efficiency.
- Stored data in MongoDB and provided a **user-friendly interface** for configuration.

Certifications

Level 1.1: E-Commerce
Unstop
Oct 2023

Web Development
Teachnook
Oct 2022
